3M™ Envision™

Print Film 48C

Interior Retail Applications

Selected for this retail chain to highlight their café within a large format retail store. Whatever your goals for brand experience, 3M™ Envision™ films provide **versatility and sustainability at an affordable price.**

3M™ Envision™ 48C is best for flat or simple curved shorter term applications

Interior retail applications include:

- Walls
- Countertops
- Floors
- Point of purchase
- Promotional signage
- Windows

Certifications for interior retail applications include:

- GREENGUARD Gold Certification for low emissions of volatile organic compounds in indoor environments
- EN13501 – for films that are used in interior settings, particularly with brands & supermarket chains
- British Standards Spread of Fire BS476, Smoke Emission BS6853 and BS476
- ASTM E84 Surface Burning of Building Materials Class I (A) : the most fire resistant category, acceptable for any building using NFPA 101
